Passion for learning

Scrum & Teamwork

Germán Aliprandi

Frontend Developer

I'm from Argentina, I'm web developer with more than 10 years of experience in frontend technologies and with solid knowledge's of Javascript, CSS and some of the modern libraries like React, Svelte and Vue.

I like to keep me up to date with the latest technologies and apply the modern and the best development practices.

I'm currently in search of a challenging project in witch I can apply what I have learned and learn new things.

Employment history

Egg Education | 2021 ~ Present | Remote

Frontend Developer

Egg education is an organization that seeks to connect people through cooperation with a technology that transforms groups into real teams.

Here I am part of the frontend development team with the challenge of producing an agile application capable of scaling and serving 500,000 users.

Remote Mentor | 2020 ~ Present | Remote

Freelance

I have always loved teaching, I was a computer science teacher in a high school in 2000/02, since then I have never stopped teaching.

As a complement to the "Advanced Javascript Course" that I give in person, I decided to start with Retome Mentoring and Pair Programing remotely with clients in Argentina, Mexico, Spain, Australia and Austria.

Gadget Tucumán | 2010 ~ 11 years | Tucumán, Argentina

Frontend Developer

Gadget tucumán is a small company dedicated to the sale of photographic equipment for professionals, which has become a leader in the northern area of Argentina.

There I will develop their main website and various company web tools and systems.

Luis Brunelli y Cía | 2005 ~ 4 years | Rafaela, Argentina

Area Sales Manager

Luis Brunelli is an import company of spare parts for vehicles and computers, with clients throughout Argentina, and with more than 30 employees.

There I worked as sales manager for the IT area and also developed an internal reporting tool.

Gayol Computación | 1997 ~ 7 years | Rafaela, Argentina

Technical Leader

I started working while studying electronics and did most of the company's activities. At the end I worked as a technical leader coordinating the work of 20 people.
