Skills

Pragmatic

English and Spanish

Linux and Open Source

Electronic Technician

Frontend developer

AWS, Google Cloud

Passion for learning

Germán Aliprandi

Frontend developer | Electronic technician | Linux fan

I'm from Argentina but I am evaluating the possibility of relocating to other country.

Currently I sell and repair a photography camera, although programming has always been my passion, and I am determined to dedicate myself fully to it.

I have been programming websites since 2000 and since then I keep up to date with the latest technologies and tools.

Personal developments

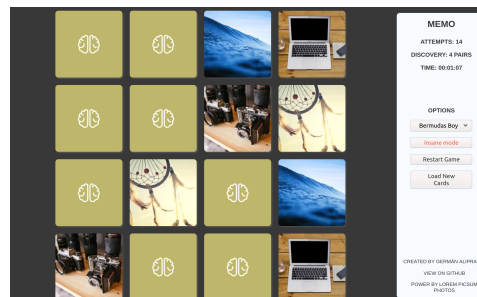

Gadget website

Website and products catalog of Gadget company.

Tools: Svelte, Serverless, GCP.

Website: micamara.ga

Code: github.com/galiprandi/micamara.ga

Memo Game

A nice adaptation of the classic game to test your memory.

Tools: Javascript, CSS, HTML.

Website: galiprandi.github.io/memo

Code: github.com/galiprandi/memo

This is a **small set of tools** that aims to generate a starter framework from which you can start **generating mobile sites with more modern styles**.
To do this, several styles are overwritten by default browsers.
Status: In development (not for production)

Tools and Utilities

- `flat` - Remove the rounded edges.
- `sol` - Element with color background I define in the variable `--hover`.
- `com` - Swap colors for their complementary.
- `out` - Remove the border from the elements
- `inv` - Inverts the colors defined in the variables `--text` and `--hover`.

css-toolset.css

A small set of CSS tools to generate mobile sites with modern styles.

Tools: CSS.

Website: galiprandi.github.io/css-toolset.css/demo.html

Code: github.com/galiprandi/css-toolset.css
