Skills

Pragmatic

English and Spanish

Linux and Open Source

Electronic Technician

Frontend developer

AWS, Google Cloud

Germán Aliprandi

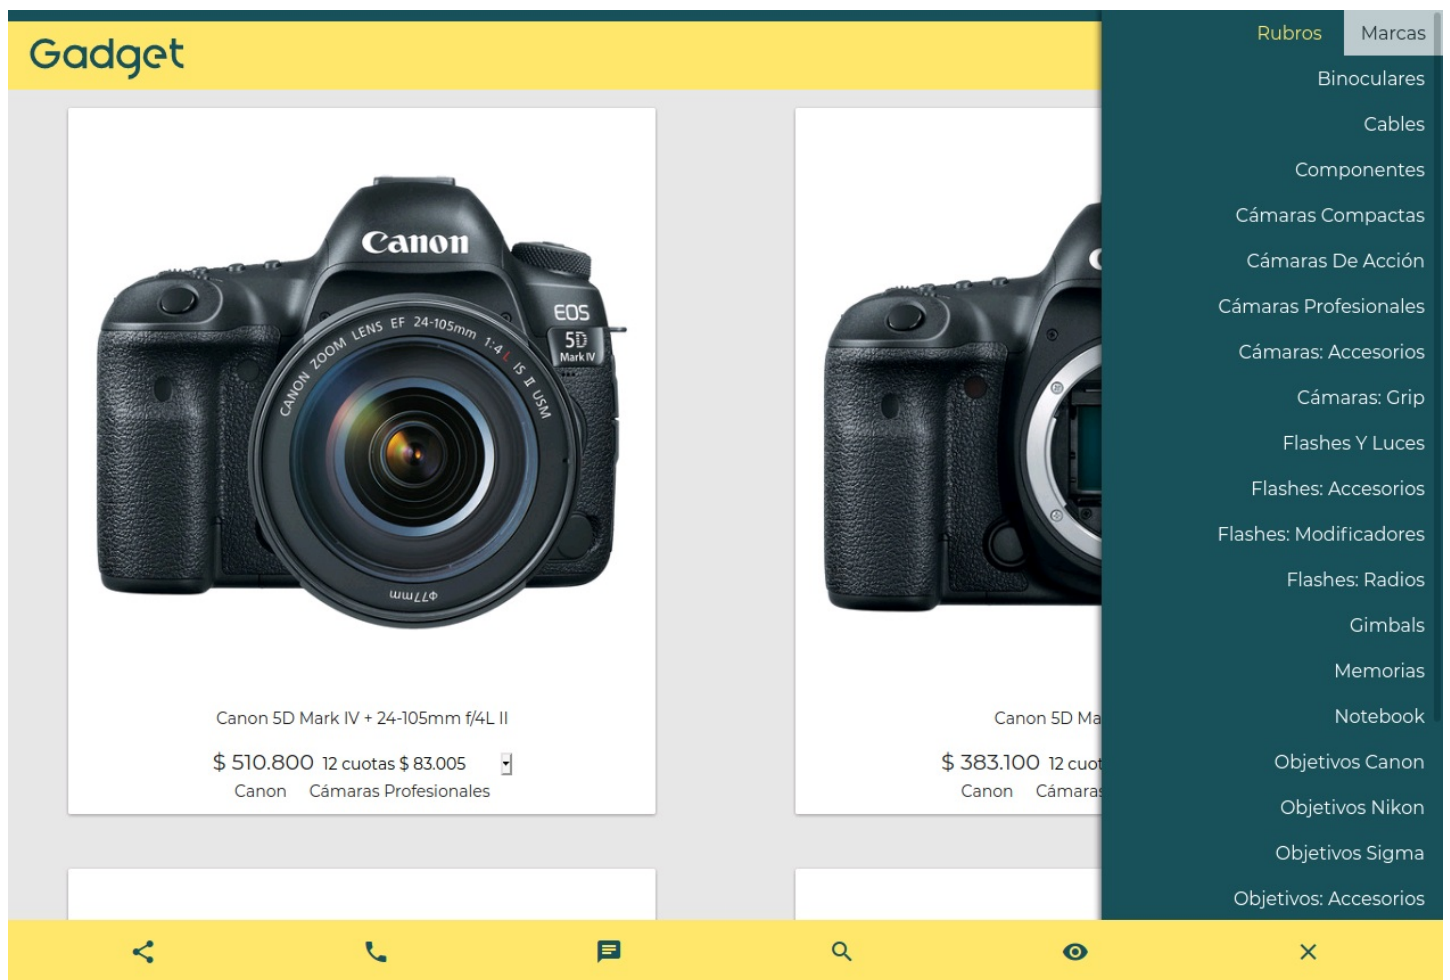

Frontend developer | Electronic technician | Linux fan

I'm from Argentina but I am evaluating the possibility of relocating to other country.

Currently I sell and repair a photography camera, although programming has always been my passion, and I am determined to dedicate myself fully to it.

I have been programming websites since 2000 and since then I keep up to date with the latest technologies and tools.

Personal developments

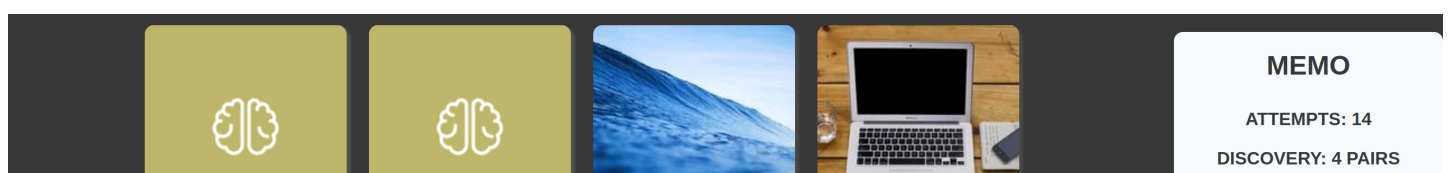

Gadget website

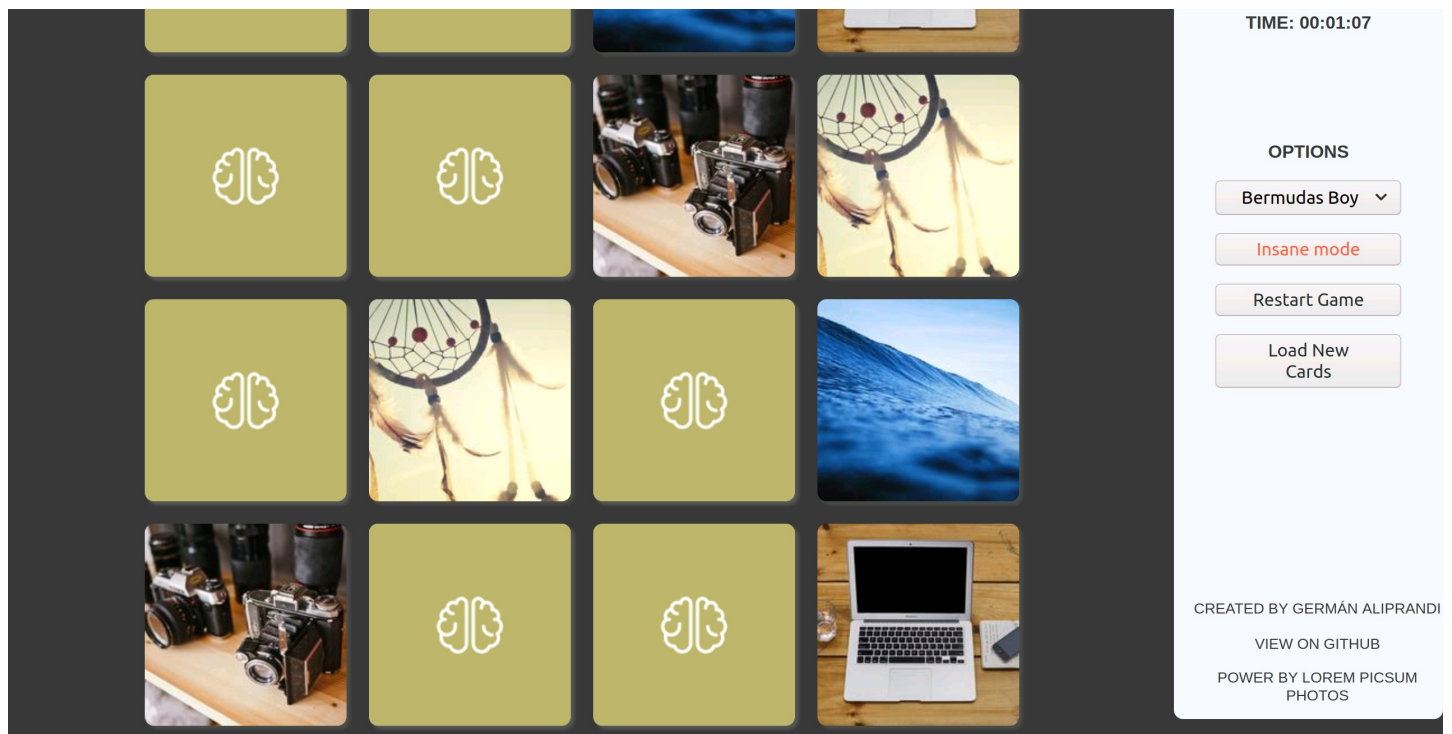

Website and products catalog of Gadget company.

Tools: Svelte, Serverless, GCP.

Website: micamara.ga

Code: github.com/galiprandi/micamara.ga

Memo Game

A nice adaptation of the classic game to test your memory.

Tools: Javascript, CSS, HTML.

Website: galiprandi.github.io/memo

Code: github.com/galiprandi/memo

css-toolset.css

This is a ***small set of tools*** that aims to generate a starter framework from which you can start ***generating mobile sites with more modern styles***.

To do this, several styles are overwritten by default browsers.

Status: In development (not for production)

Tools and Utilities

- .flat - Remove the rounded edges.
- .Sol - Element with color background I define in the variable --hover.
- .Com - Swap colors for their complementary.
- .Out - Remove the border from the elements
- .Inv - Inverts the colors defined in the variables --text and --hover.

css-toolset.css

A small set of CSS tools to generate mobile sites with modern styles.

Tools: CSS.

Website: galiprandi.github.io/css-toolset.css/demo.html
