# Germán Aliprandi

Frontend developer | Electronic technician | Linux fan

I am from Argentina, owner of a small camera shop, and I am evaluating the possibility of relocating to another country.

Programming has always been my passion and my hobby, so I keep up to date with the latest tools and good frontend development practices.

I've been programming websites since 2000, and now I'm determined to dedicate myself exclusively to developing, which is what I love.

## My favorite technologies

Linux systems    Javascript Clean Code    Serverless, AWS & GCP    Svelte & React  
Bash scripting    PWA & Service Worker    MERN Stack    Modern CSS code
