# Germán Aliprandi

Frontend developer | Electronic technician | Linux fan

I'm from Argentina but I am evaluating the possibility of relocating to other country.

Currently I sell and repair a photography camera, although programming has always been my passion, and I am determined to dedicate myself fully to it.

I have been programming websites since 2000 and since then I keep up to date with the latest technologies and tools.
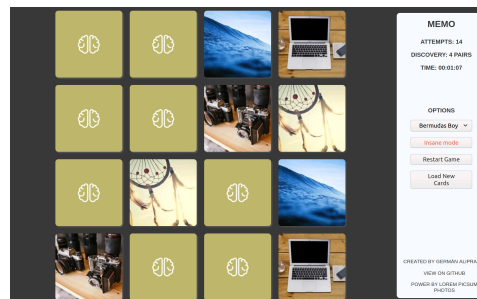

Personal developments

Gadget website

Website and products catalog of Gadget company.
